

## Eminence

This sophisticated leather is dyed for color and then tipped with a wax giving the leather a burnished effect. A distinctive leather that is aged and distressed using the waxing technique but will not have any pull up effect since the wax is only applied to the tips of the leather. The waxing of the tips add a bright effect to the leather and creates a contrasts in the leather that give is depth and character. Color variation from swatch to order should be expected since this is an aniline leather.

### Details:

Finish Type: Aniline

Content: South American Cowhide

Country Finished: Brazil

Size: 48 sq ft +/-

Thickness: 1.1-1.3 mm
