

Havana

The Havana Collection is a natural material known for its unique weave patterns. This collection has the texture of traditional woven design, which will add depth and character to your projects. Slight variations in fibers may occur, which are not defects but enhance the fabric's natural appearance. Havana comes in four different patterns: Cabana, Island Time, Madagascar, and Palm, each offering a different woven pattern. The visual richness makes it a popular choice for adding warmth and a touch of artisanal charm to interior spaces or upholstery designs.

Application: Decorative Upholstery (only use for outside + inside backing) , Wallcovering, & Casegoods

Content: 100% Organic Cellulose (Paper Weave)
Fiber made from tree pulp. Havana is ***not*** a woven fabric.
